Indiana University, Bloomington

Call for Workshops & Tutorials

The *10th International Conference on the Simulation and Synthesis of Living Systems*
June 3-7, 2006, <http://alifex.org>

We are soliciting proposals for workshops and tutorials for **ALIFE X** to be held in Bloomington, Indiana, June 3-6, 2006. Proposals should include a brief description (1-2 paragraphs) of the topic and objectives of the session, as well as a list of potential presenters. Visit <http://alifex.org> for an up-to-date description of the conference. The workshops and tutorials will be held on June 3, 2006. Workshops are typically full-day events with 7-12 speakers.

Workshop proposals will usually be 1-2 pages and should include a rationale for the timeliness, importance, and relevance of the topic, as well as organizational details concerning the program committee, organizers, and format. Tutorial proposals should describe the content material covered and intended audience.

The due date for all proposals is **February 1, 2006**, and notification of acceptance will be given by **March 1, 2006**. Proposals received after February 1 will be considered as time and space permit. If a workshop proposal is accepted, camera-ready papers are due **April 15, 2006**, and should be in the same format as the conference papers. Workshop papers will be distributed to conference attendees in a Workshops Proceedings, but will not appear in the MIT Press book based on the conference proceedings. Workshop organizers are free to independently arrange journal special issues. Leaders of accepted tutorials are expected to provide either a paper covering the material, or a set of formatted notes not exceeding 20 pages by April 15, 2006.

Proposals should be in plain text. Proposals and questions concerning proposals should be sent to workshops@alifex.org.
